EXAMINER'S AMENDMENT

The applicant's response filed 9/10/2004 to the Office action has been entered. Claims 47, 50, 53, 61-62 and 67-68 and 70-72 are pending.

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Edward Freeman on 9/24/2004.

2. The application has been amended as follows:

In claim 47, line 1, delete "destabilizing", and substitute therefore -- destabilizing --.

In claim 61, line 6, after "the viral replication system", insert -- in the patient --.

In claim 72, line 3, after "transforming", delete "the".

3. The following is an examiner's statement of reasons for allowance:

Concerning claims 47, 50, 53, 61-62 and 67-68 and 70-72, no prior art has been found teaching or suggesting the process for destabilizing a viral quasi-species-distribution without inducing resistance to therapeutic agents in which the nucleic acid of viruses is replicated by a defective replication system, wherein the defective replication system incorporates nucleotides with a rate of misincorporation higher than a rate of misincorporation of the viral system of a wild-type and the defective replication system is induced by action of a chemical substance active agent.
